SYMBIOSE JOINS THE SHAREHOLDERS OF TOULOUSE BLAGNAC AIRPORT

Following the tender to invest in the equity of the company that manages the Toulouse Blagnac Airport in July 2014, the French government, through the French government Shareholding Agency, has accepted the SYMBIOSE consortium as the purchaser of part of its shareholding in the AÉROPORT TOULOUSE BLAGNAC company, holder of the concession up to 2046. This consortium, made up of the SHANDONG HI-SPEED GROUP and FRIEDMANN PACIFIC ASSET MANAGEMENT, now owns 49.99 % of the shares in the AÉROPORT TOULOUSE BLAGNAC. The French State retains 10.01 % of the company's capital and remains owner of the land and airport installations.

SYMBIOSE will join the Supervisory Board of the airport management company, AÉROPORT TOULOUSE-BLAGNAC, alongside its historic shareholders that retain a majority of the equity: apart from the French State, the Toulouse Chamber of Commerce and Industry with 25%, the Midi-Pyrénées Regional Council, the Haute-Garonne Departmental Council and the Urban Area each with 5%.

The Symbiose project aims to provide the airport and the Toulouse region with a new impetus for development and growth. The actions of the company will be led by the desire to fully exercise its social and environmental responsibilities.

For Jean-Michel Vernhes, Chairman of the Management Board of the AÉROPORT TOULOUSE BLAGNAC, *"It is a new page in the history of our airport that is being turned. SYMBIOSE will give new life to the development of our platform. This evolution is a continuity of the work accomplished over the last few years by the employees of the AÉROPORT TOULOUSE BLAGNAC, and who are committed to the success of the SYMBIOSE project, and the economy of the region"*.

Spring 2015 : Volotea launches new routes: Palerme, Figari, Palma de Majorque.

Spring 2015 : easyJet launches new routes: Palma, Figari, Séville, Agadir, Amsterdam
